

MEDIA RELEASE
NOVEMBER 23, 2020

**THE ARCHITECTURE MACHINE
THE ROLE OF COMPUTERS IN ARCHITECTURE**

The exhibition in the Architekturmuseum of the Pinakothek der Moderne is extended until June 6, 2021

Opening: 13.10.2020

LAUFZEIT: 14.10.2020–06.06.2021

Due to the Corona crisis, the Pinakothek der Moderne is closed to visitors since November 3. As it is currently impossible to predict when the museum will be able to reopen due to the continuing high number of infections, the Architekturmuseum der TUM has decided to extend the current exhibition **"The Architecture Machine. The Role of Computers in Architecture" until June 6, 2021.**

The next exhibition "New Neighbors. Insights into the Archive" will be postponed to the year 2022. The exact dates will be announced in the coming weeks. Many lenders, authors of the catalogue, students, sponsors, and colleagues have already contacted us to find out when they can see this extensive and highly elaborate exhibition in person. With the extension, we want to offer all interested parties the opportunity to visit this unique show, which focuses on the development of the digital in architecture and explores the question to what extent the computer has changed architecture. Until its reopening, the Architekturmuseum offers a broad program with digital guided tours and lectures on [YouTube](#).

The following exhibition "New Neighbors. Insights into the Archive" will be postponed until 2022. Exact dates will be announced in the coming weeks. The other exhibition dates planned for 2021 will remain unchanged:

Taiwan Acts! Architecture in social dialogue: July 08 - October 03, 2021

Who's Next? We Need to Talk About Homelessness: November 04, 2021 - February 06, 2022
